The Journey to Greece Program was, to put it simply, Amazing! I still cannot believe the places I saw and the knowledge I gained in the time I spent in Greece. This program was very well organized and an experience of a life time! Tommy Garanis

In this period of study, excursions, and daily life I analytically observed Greek culture and came to understand the historical significance of many traditions and aspects of Greek life. I truly enjoyed all of the aspects of the program. What a wonderful opportunity to examine Greek culture and help me reflect on my own Greek identity. Thank you!

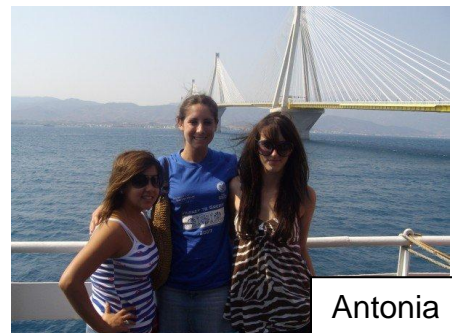

**Peter Papapetrou of Whitby, Ontario; 2008 recipient**

The Journey to Greece program was a very memorable experience that gave me an excellent opportunity to explore my native homeland through travelling, studying, and making new friendships. The program was well organized, and I was impressed most by how welcoming the supervisors and others involved in the program were to me and my fellow participants.

**Antonia Schindle of Argyle, Manitoba; 2007 recipient**

Spending my first summer in Greece on the AHEPA Journey to Greece program has been the most amazing experience of my life.
